Kategorie: Gear oil for manual transmissions and drive axis

Artikelnummer: 1250050

Specification: API GL-4

Oil type: Fully synthetic

Application: Passenger car, Motorcycle

RAVENOL Motogear SAE 75W-90 GL-4 is a fully synthetic gear oil with a special formulation for extremely stressed gearboxes and rear axles.

RAVENOL Motogear SAE 75W-90 GL-4 is designed on the basis of high-quality synthetic base oils with a special additivation and inhibition to ensure the proper operation of the transmission and the rear axle.

RAVENOL Motogear SAE 75W-90 GL-4 has good high temperature stability with a high load carrying capacity and reduces friction even under extreme operating conditions.

RAVENOL Motogear SAE 75W-90 GL-4 for comfortable operation even at low temperatures.

Application Note

RAVENOL Motogear SAE 75W-90 GL-4 is best for use in highly loaded gearboxes and rear axle - final drive, for which SAE 75W-90 API GL-4 oil is required.

Characteristics

- High load carrying capacity by a stable lubricating film even at high loads
- Reduction of friction and wear by special additives
- A very good corrosion protection and good tolerability to non-ferrous metal
- A high oxidative stability to prevent oil thickening and deposits
- Excellent cold flow properties
- a very good compatibility with elastomers to prevent leaks
- A very strong protection against rust, corrosion and foaming
- Excellent EP properties
